Land Acknowledgement

"I (we) wish to acknowledge this land on which the University of Toronto operates. For thousands of years it has been the traditional land of the Huron-Wendat, the Seneca, and the Mississaugas of the Credit. Today, this meeting place is still the home to many Indigenous people from across Turtle Island and we are grateful to have the opportunity to work on this land."

INTRODUCTION

The Internal Audit Department is committed to promoting efficient and effective administration in support of the academic mission of the University. We achieve this through the provision of assurance services (e.g. independent and objective [audit reviews](#)), investigative services (e.g. [special reviews](#)) and consulting services (e.g. educational presentations). The scope of our services encompasses all University operations and locations, including the three primary campuses (St. George, Mississauga and Scarborough) and the University of Toronto Asset Management Corporation ([UTAM](#)). Our responsibilities are formally outlined in the [Internal Audit Policy](#), approved by the Business Board of Governing Council on May 29, 2006.

In the pages below, you will find more detailed information about our charter, services, department complement and our ethical standards. We encourage you to review this information for a better understanding of the role of Internal Audit within the University.

Internal Controls

Internal controls are the tasks that are in place to help address risks.

What can go wrong? → Risk

What can we do to make sure that doesn't happen? → Control"

(acua.org)

Who plays a role in internal controls?

General example of financial risk

Inadequate documentation to support charges to grant

General control example

Department admin staff matches the purchase order, invoice and receiving slip before marking the supply as received

Research Expenditure Compliance Assessment Program (RECAP) Overview

What we do and how we do it

Review, assess, and report on research expenditure compliance

Create awareness about the importance of internal control activities and compliance

Assist with training & education (e.g. STAR Conference)

Internal Audit: RECAP Process

Poll Question 3

Which of the following is NOT a common area of issues identified during the review of research expenditure compliance?

- Grant-related purpose for the expenditures is not clear.
- Expenditures do not directly contribute to the funded research/activities and hence are ineligible.
- GTFM and/or other University procedures are not followed for purchasing goods/services and appropriately recording in FIS.
- ✓ **Grant recipient has not authorized the expenditure.**

Common Issues

- Purpose and **direct relevance** of expenditure to funded research **not clear**:
 - **Potentially ineligible**, if not substantiated
 - Personal travel component involved in Expense Claims
 - Significant in PCard purchases due to the nature of transactions
- Non-compliance with GTFM, Procurement and other policies and procedures
 - Inappropriate use of OTAs, Invoice payments to individuals, purchases exceeding competitive procurement thresholds, etc.
 - Significant in Invoice charges
- Supporting documentation, including missing receipts/invoices and proof of payment

Summary

Individuals in **research administration** have an important role in exercising effective **internal control** activities for better research **compliance**;

- ✓ Review admin operations and determine areas to be addressed in more detail
- ✓ How do you welcome someone new?
