About the Request Form

The outgoing sub-award request form allows Principal Investigators (PI) to initiate a sub-award or amend an existing sub-award. As a Project Manager, you can create a sub-award request or amend an existing sub-award but only the PI can submit the request for review.

Once the request is submitted, it will be routed to the VPRI Research Officer on the University of Toronto Research Account (UTRAC) for the fund for review before the sub-award agreement is established.
